

# Low cost alternative to traditional funerals

By Times-Journal Staff

Keeping things simple allows London Cremation Services to provide an attractive alternative to traditional funeral homes.

Because they don't have the inherent costs of a funeral home — the large facility, vehicles and an extensive staff — Stephen Michalchuk and Bethoney Imbeault can offer cremation services at a fraction of the cost.

Arrangements are simple and easy to understand, Stephen stresses.

"That's not to say we don't provide a complete service. We provide proof of death certificates needed in order to settle the estate. We also help complete the entire Canada Pension Plan Death Benefits package. We also assist in drafting a notice for any newspaper in the country."

With no requirement for visitation,

there is no need to stock an array of expensive caskets. However if families feel the need to utilize an urn, London Cremation Services has them in stock in prices ranging from \$200 to \$2,500.

Stephen and Bethoney take pride in their personalized service, answering all questions in easy-to-understand fashion.

"We are available any time of day or night," notes Stephen. "We answer the phones personally. We believe at that time, people need to speak to the person who is going to be in charge of their arrangements right away."

"The acceptance is good from all faiths and all ages," Bethoney adds.
